**Settle Assist[®]
to FLOOD**
Exclusively offered by Pilot

THE FUTURE OF FLOOD CLAIMS STARTS HERE

Accuracy

With Settle Assist for Flood, the Flood Adjuster can simultaneously scope and write the estimate with a single input on site.

- Step-by-step technical scope
- Xactimate and Sketch Integration
- Built in NFIP guideline engine
- Photo Management System
- Talk to Text Feature

Cycle Time

Settle Assist for Flood clears the way to reduce the time to payment.

- Scope, written estimate, and final submission done on site
- Step-by-step technical scope reducing delay causing errors
- NFIP guideline engine maintains policy and industry standards improving final claim approval

Customer Satisfaction

A flood is a difficult experience for policyholders and every bit of relief counts.

- Reduction in follow-up communication with the insured
- Improved process moves more quickly through internal approvals
- Faster claim resolution for the policyholders to move on

DESIGNED BY FLOOD ADJUSTERS, FOR FLOOD ADJUSTERS.
