LEADING THE WAY IN FLOOD CLAIMS TECHNOLOGY

CLAIMS COMMAND

Pilot's Tech Suite revolutionizing
flood claims management

- **Smart dispatch:** Strategically assigns the nearest qualified adjusters to claims, optimizing response time and resource allocation.
- **Data-driven insights:** Harness the power of configurable dashboards, effortlessly tracking Key Performance Indicators (KPIs) and assigning efficiency ratings for informed decision-making.
- **Continuity:** Enhance workflow efficiency through seamless integration with Xactimate/XactAnalysis, for smooth data flow and collaboration.

DISPATCH MANAGER

Transforming
Flood Claims Resolution

- **Two-way Communication:** Real-time updates keep adjusters and policyholders connected and informed for ultimate collaboration.
- **Uninterrupted integration:** Compatible with existing systems, saving valuable time and resources.
- **On-Demand Monitoring:** Track a claim like a food delivery or ride share. Mobile app sends push notifications during the claims process and through resolution.

SETTLE ASSIST FOR FLOOD

The all-in-one app
for faster, smarter flood claims

- **Simplify assessments:** Streamline data entry and integrate with Xactimate for quicker, precise estimates.
- **Ensure compliance:** Built-in NFIP guideline engine guarantees adherence to regulations.
- **Work smarter:** Real-time photo management, speech-to-text, and reduced paperwork for efficient, safe operations.

DESIGNED BY FLOOD ADJUSTERS, FOR FLOOD ADJUSTERS.
